Subject: Re: FW: WA/24/21 - Lower Farm - Ground Water

Hi Anita,

Sorry for the late reply.

The infiltration testing and groundwater monitoring is okay, but it does not address all of my other comments. In addition, it looks like we will need to see flotation calculations as a result of the high groundwater. Based upon the groundwater being its highest at the beginning of the monitoring, monitoring commencing in late January, and levels close to surface- we will need to see that groundwater is assumed to be at surface level.

We do not recommend discharge of these conditions at this time. Please ensure that no construction is occurring whilst details are being agreed.

Kind regards,

Laura Gibbons

Hi Laura,

Are these details now acceptable?

Thanks

Anita

Hello Anita & Laura,

Please see the attached reports on soakaway testing and ground water monitoring at Lower Farm, Walberton.

Many thanks, John.
