Dear Andrew

Please see my email below, the contents of which I trust will be self-explanatory.

Kind regards,

Mark Warwick

Subject: WA/63/19/PL - Land South of Arundel Road, Walberton. Pre-commencement site meeting (Tree Protection Measures)

Dear Patrick

Thank you for your email confirming installation of the Tree Protection Fencing has been completed. As noted during our site meeting last week, *Precautionary Areas* and *Construction Exclusion Zone protected by ground protection* (as illustrated on the approved Tree Protection Plan) have been captured within the initial fencing installation.

Your project arboriculturist has also confirmed they are satisfied with the installation of the above measures.

You have confirmed that all works in the Precautionary Areas and preparation for/installation of 'No-dig' construction - will be undertaken under the supervision of your project arboriculturist. An auditable trail of ongoing inspection and monitoring at those key stages (arboriculturally sensitive) of development will be submitted to the local planning authority, in accordance with the approved arboricultural method statement.

On that basis, I can advise the planning officer that **the requirements of condition 14 have been met.**

Kind regards,

Mark Warwick
Tree Officer, Greenspace Team

Afternoon Mark

Further to our site meeting last Friday, please see below photos confirming that all the heras are now up on the scaffold framework. I will be in touch direct with Dave at Barrells when we need to construct the no dig and precautionary areas.
