Subject: Planning Application WA/34/15/PL Land East of Lower Farm Yapton Lane, Walberton

Good afternoon Anita,

As discussed yesterday, please find attached a Reptile/Newt Mitigation Strategy, prepared in consultation with the County Ecologist.

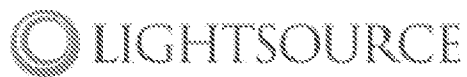

I have also attached an addendum to the planning application which we are adding to all our application across the country, providing justification for our applied timeframe (life of the solar farm or 30 years).

As discussed, on Wednesday we received notice that Feed in Tariffs will drop on the 1st October, by almost 75%. Such a drop places extreme uncertainty over the viability of the solar farm. We can lock in the current rate if we get a decision before the 30th September. It would therefore be greatly appreciated if you could work to provide a decision on this (provided you have all information and there are no extant objections of course) before close of play on the 30th. Please do let me know if there are any issues with this.

Have a good weekend.

Regards

Brendan Clarke | Senior Planner | M: +447787299568 | D: +442036677961 | T: +443332000755
