Dear Hannah,

Please find attached the revised arboricultural documents as requested. Hopefully these will suffice but if there are any further queries please let me know.

With kind regards

Nick

Dear Nick,

I hope this email finds you well.

I attach the report from the council tree officer regarding the Deodar Cedar. He has found that the data provided in the tree survey is still incorrect and a small but important revision to the protection plan and arb. report is required before he can support the application. He has said however that the extent of the RPA incursion is not problematic and so anticipates that these small changes should be able to be made in time for approval of the application.

Please could you submit to us a revised Tree Protection Plan and AIA/MS (Table 4) RPA Schedule. The application is due for expiry on the 14th June so if this could be sent to us within the next week that will give us sufficient time to reconsult the tree officer and get his approval. We do not believe there to be any other issues with the application other than the data surrounding the tree so once we have had the all clear from the tree officer we will be able to issue you a decision.

Kind regards,

Hannah Kersley
