

Engineers Comments Regarding Surface Water Drainage

Application Reference:	WA/35/26/DOC	Reviewer Reference:	15/05/2026
Planning Officer:	Harry Chalk	Date of Review:	ADC/EXT5/AF
Site Name:	Greenways Dairy Lane Walberton BN18 0PT		
Application Description:	Approval of details reserved by condition under WA/34/25/PL relating to Condition 14- Surface Water Drainage (See WA/34/26/DOC for Conditions 3- External Materials & Finishes, 5- Walls & Fences, 6- Waste & Recycling Storage, 7- Cycle Parking, 8- Biodiversity Enhancement Layout and 15- Biodiversity Gain Plan).		
Assessment Number:	1		

Policy and Guidance Information	
Arun District Council Surface Water Drainage Guidance (including design checklists) - https://www.arun.gov.uk/surfacewater Land Drainage Consent – https://www.westsussex.gov.uk/fire-emergencies-and-crime/dealing-with-extreme-weather/flooding/flood-risk-management/ordinary-watercourse-land-drainage-consent/ Arun District Council Land Drainage Byelaws - https://www.arun.gov.uk/byelaws/ Arun District Council surface water pre-commencement conditions - https://www.arun.gov.uk/planning-pre-commencement-conditions The National Standards for SuDS - https://www.gov.uk/government/publications/national-standards-for-sustainable-drainage-systems/national-standards-for-sustainable-drainage-systems-suds The SuDs Manual [C753] by CIRIA	

Response	Condition 14: Objection
-----------------	--------------------------------

References
The NPPF states that when determining any planning application, local planning authorities should ensure that flood risk is not increased elsewhere (paragraph 181, 182 and 187e). The PPG guides local planning authorities to refer to 'Sustainable drainage systems: non-statutory technical standards' [NsTS] and detailed industry guidance like The SuDS Manual [C753] by CIRIA to guide decisions about the design, maintenance, and operation of sustainable drainage systems for non-major development. The NsTS have been superseded by the National Standards for Sustainable Drainage Systems [NSfS] from 19 June 2025. This consultation has been primarily informed by the NSfS and The SuDS Manual.

Summary

This summary highlights if critical items aligning with each of the standards have been met. Critical items are highlighted in **bold** on our surface water drainage design checklist (linked above). A failure to address these will result in an **objection** to any application to discharge a surface water drainage design condition.

If any of these items are inadequately addressed by the submission, then their correction may result in a redesign of the surface water drainage scheme. A redesign is likely to have site wide implications such as the potential for storage structures to increase in volume or plan area, or the provision of other important infrastructure to satisfy the NSfS set out below.

All relevant items on the checklist are expected to be met before an application to discharge an application to discharge a SuDS design condition is supported.

Our response and requirements are elaborated upon or condensed within an attached comment tracker where necessary. If a comment tracker is provided a designer is encouraged to refer to this and respond to comments to aid further review. Please request a .docx version of this document to by email to land.drainage@arun.gov.uk if needed.

Standard	Assessment	Response
1. Runoff destination	Insufficient	Objection
2. Interception drainage	Compliant	No objection
3. Extreme Rainfall and Flooding	Insufficient	Objection
4. Water Quality	Insufficient	Objection
5. Amenity	N/A	
6. Biodiversity	N/A	
7. Construction, operation, maintenance, decommissioning and structural integrity	Compliant	No objection

Reviewed Plans

The following documents have been submitted and reviewed to inform this consultation with reference to surface water drainage:

-Drainage Technical Note: Condition Discharge. 17.04.2026 Rev A.

Plans/Documents to be listed as approved

The following plans/documents should be listed as approved in respect to condition 14:

- N/A

Condition wording

Condition 14 is worded as follows:

“Prior to the commencement of development, full details of the proposed surface water drainage scheme must be submitted and approved in writing by the Local Planning Authority. The full details submitted for approval shall include:

- 1. Winter infiltration testing strictly in accordance with BRE DG 365 or similar approved,*
- 2. Details of the proposed method and location of surface water disposal, in accordance with the SuDS hierarchy,*
- 3. Impermeable area plan,*
- 4. Calculations modelling the surface water drainage network for the following storm events:*

- a. 100% Annual Exceedance Probability*
- b. 10% AEP + climate change allowance*
- c. 3.3% AEP + climate change allowance*
- d. 1% AEP + climate change allowance*

All storm events must include an allowance for urban creep and surcharged outfalls where appropriate,

- 6. Detailed drainage plans conforming to Local Planning Authority guidance,*
- 7. Specifications for all surface water drainage components and associated infrastructure or flow control mechanisms,*

The scheme shall then be constructed as per the approved plans. The surface water drainage scheme shall remain for the lifetime of the development unless agreed in writing by the Local Planning Authority.

Reason: In order to comply with Arun Local Plan policies W DM1, W DM2, and W DM3 and the NPPF”

Consultation comments to the planning officer

1. Please see the attached comment tracker for detailed comments relating to the submission.

Drainage Impact on Other Planning Matters

This application has been assessed with regards to surface water drainage design only, together with land drainage aspects if deemed necessary.

Other planning matters occasionally effect the surface water drainage design. If plans relating to other matters have been assessed for their impact on the proposed drainage, then it must not be assumed that they have been assessed for any other purpose. The planning officer is advised to check for conflicts with any existing approved plans and to consult any relevant consultees as appropriate.

It has been identified that the following consultees may have comments about the plans that have been submitted and reviewed for this application:

- ☐ Landscaping officer (proposed trees and landscaping)
- ☐ Tree officer (existing trees)
- ☐ Environment Agency (main rivers and fluvial/tidal flood risk, River Arun internal drainage board, groundwater source protection zones)
- ☐ Southern Water (foul drainage and surface water disposal to public sewer network/groundwater source protection zones)
- ☐ Portsmouth Water (groundwater source protection zones)
- ☐ Lead local flood authority (all other sources of flooding and ordinary watercourses)
- ☐ Other: Specify
- ☒ None

Summary and Recommendation:

Condition 14: **Objection**

	ADC Drainage Comments	Designer Response			
Date:	15/05/2026				
Condition Number: 14					
Comment Number					
1.	Rainwater reuse is the first SuDS priority. For residential dwellings it would be acceptable to include water butts.				
2.	Water quality mitigation for the roof drainage, for example a filter drain or similar measure to accord with the Simple Index Approach or other assessment.				
3.	The infiltration rate should not be applied to the sides as well as the base.				

If a designer would like a .docx version of this document to aid administration of responses, please request this by email to land.drainage@arun.gov.uk.

NOTIFICATION FROM ARUN DISTRICT COUNCIL

1

TOWN AND COUNTRY PLANNING ACT 1990

Application No: WA/35/26/DOC
Registered: 24th April 2026
Site Address: Greenways Dairy Lane Walberton BN18 0PT
Description of Works: Approval of details reserved by condition under WA/34/25/PL relating to Condition 14- Surface Water Drainage (See WA/34/26/DOC for Conditions 3- External Materials & Finishes, 5- Walls & Fences, 6- Waste & Recycling Storage, 7- Cycle Parking, 8- Biodiversity Enhancement Layout and 15- Biodiversity Gain Plan).

The Council have received the above application to discharge conditions. I shall be pleased to receive any observations you may wish to make in respect of those conditions relating to your field of expertise.

[Click here to view the Discharge of Condition application and view the documents](#) The website is updated once a day in the evening, so you may need to wait until the day after this notification to view the documents.

[Click here to view the original application and decision notice](#)

Should you wish to make any comments click on the link and click into ?Enter Comment? or if this is not possible email your response to planning.responses@arun.gov.uk by **14th May 2026**.

Please be aware that any comments you may make will be available on our website so please do not insert personal details or signatures on your reply.

In the absence of a reply within the period stated, I shall assume that you have no observations to make.

Yours sincerely

Harry Chalk
