**This application has been dealt with in accordance with the Development Control Scheme protocol for small scale proposals which include up to 5 residential units or extensions to single units accessed from roads that do not form part of the Strategic Road Network (SRN). As such the comments provided by Local Development should be considered to be advice only, with respect to this planning application.**

This proposal has been considered by means of a desktop study, using the information and plans submitted with this application, in conjunction with other available WSCC map information. A site visit can be arranged on request.

I refer to your consultation in respect of the above planning application and would provide the following comments.

The travel plan is acceptable with regard to data and assessment of travel needs and it is clear as a rural school car use takes priority. As the Nursery obviously accommodates parents with pupils at the local school we would want to see a commitment and evidence to working with the school on travel issues promoting sustainable initiatives and some Road Safety Education including car seat safety for young children. It may well be that the Nursery already engage in this way, therefore it would need to be added to the plan only.
