Dear Amy,

Further to our conversation today, I can confirm that we would be happy for the suggested condition to be altered to be discharged within a reasonable time frame (no more than one year) of the decision notice should you (or an inspector) be minded to approve the application, rather than prior to occupation.

I am confident that a policy compliant surface water drainage scheme will be achievable on the site if designed by a competent Engineer. It is advised that the applicant engages with this department to agree the locations and depths of infiltration testing and groundwater monitoring.

Kind regards

Sarah Burrow
