Dear Ms Malik,

I have received a letter dated 26th June 2030 from Arun DC notifying me that you are the validating officer for the above application, and identifying 3 minor matters for resolution.

1. The correct payment for a joint application is £407 and I have already paid the balance of £201 directly to Arun Council last week.
2. The block plan should have dimensions from the proposed garage to the existing houses. This has been added to the drawing and revision 1 has been uploaded via the planning portal today
- 3 The location plan needs to have a red line around both sites. This has been added to the location plan within drawing 0420/01 as revision 1 which has also been uploaded via the planning portal today

I have left the two superseded drawings on the portal for reference at this stage. I trust this meets all the requirements to enable the application to be fully registered and would be grateful for your confirmation of same. If there is any further information you require please do let me know

Yours sincerely

Andrew Fullerton
