VELUX flat glass rooflight

From £577.00 excl. VAT

The VELUX flat glass rooflight stands out as a stylish yet discreet feature on any roof with a 5-15° pitch. The glass surface has a special coating for easy cleaning. Choose the electrically-vented base unit with VELUX INTEGRA® for comfortable, automated operation.

Benefits

- Scratch-free 4 mm tempered glass outer pane for great durability
- Excellent noise reduction from rain, hail and other exterior disturbances
- Insulating PVC frame and two-layer low-energy pane for optimal energy efficiency

[Price and size configurator](#)

Glass – beauty that lasts

A flat roof window with glass keeps its appealing shape and clarity indefinitely, while the toughened surface resists damage from hail and ice pellets. Great insulating effects protect against outer heat and cold temperatures and reduce exterior noise disturbances.
