Thanks Amanda. This is generally fine, though some more heavy aggregate might be used to add texture and lighten it slightly. That said, we will not need to see another sample and am happy to recommend discharge.

Have a good weekend.

Kind regards,

Ian

Apologies Ian, I should have attached the photograph that we submitted with the application.

Kind regards

Amanda

Hi Amanda,

Many thanks and hope you are keeping well. I have not been out to see this yet but if you have photographs, I will aim to do it from those to save time.

Kind regards,

Ian

Ian

I trust that you are well. Following your acceptance of the 3rd flint panel (your email of 2nd July 2014 refers) we have formally submitted a revised Discharge of Conditions submission which Anita is dealing with. This submission includes your suggestion that we could further improve the mortar mix by using more aggregate.

Susan spoke with Anita last week and I understand that she is happy to issue the Decision once she has received your confirmation of approval. Could I please if you have now done this, or when you will be in a position to do this? As I'm keen to report back to my Client that they have now received the final sign off that they are eagerly awaiting.

With kind regards

Amanda
