Order Number: 128671928_1_1
Customer Ref: 29182
National Grid Reference: 497330, 106210
Slice: A
Site Area (Ha): 11.29
Search Buffer (m): 100

Site Details

Tye Lane, Walberton, Arundel, BN18 0PS

Tel: 0844 844 9952
Fax: 0844 844 9951
Web: www.envirocheck.co.uk

Index Map

For ease of identification, your site and buffer have been split into Slices, Segments and Quadrants. These are illustrated on the Index Map opposite and explained further below.

Slice

Each slice represents a 1:10,000 plot area (2.7km x 2.7km) for your site and buffer. A large site and buffer may be made up of several slices (represented by a red outline), that are referenced by letters of the alphabet, starting from the bottom left corner of the slice "grid". This grid does not relate to National Grid lines but is designed to give best fit over the site and buffer.

Segment

A segment represents a 1:2,500 plot area. Segments that have plot files associated with them are shown in dark green, others in light blue. These are numbered from the bottom left hand corner within each slice.

Quadrant

A quadrant is a quarter of a segment. These are labelled as NW, NE, SW, SE and are referenced in the datasheet to allow features to be quickly located on plots. Therefore a feature that has a quadrant reference of A7NW will be in Slice A, Segment 7 and the NW Quadrant.

A selection of organisations who provide data within this report:

Envirocheck reports are compiled from 136 different sources of data.

Subject: Regarding contaminated land information for Walberton site 29182

Dear Sir/Madam,

I would like to enquire about the following questions (see below);

RSK has been commissioned to undertake a Phase 1 Environmental Review of The Street, Arundel, Walberton BN18 0PH (see attached plan). We are trying to establish any potential contamination issues in connection with the site and we would therefore be grateful for the following information:

1. Is the Council aware of any contamination issues or specific incidents in connection with the site?

No

2. Has the site been identified under the Council's Contaminated Land Strategy for further investigation under the provisions of Part IIA of the EPA 1990? If so, please provide further details, including your predicted timescales for further action. If not, what is the likelihood of the site being identified in the future?

The site has not been ID'd as potentially contaminated land.

3. Are there any closed, licensed or unlicensed landfill sites within a 250m radius of the site? If yes, what is their location (NGR) and what types of waste were deposited in them? Are there any known gassing issues? If any gas spiking/monitoring has been carried out, could you please supply the results?

No

4. Are there any private water supplies on your Local Authority Private Water Supply Register, within a 2km radius of the site? If yes, what is the location (i.e. NGR) and the source of the abstraction and its purpose?

There is one registered private water supplies within 2km, 1.5km to the northeast at Havenwood Caravan Park grid ref 498920 107165.

I would be grateful if you would contact me as soon as possible.

Many Thanks

Sabrina James
Graduate Geoenvironmental Engineer
