

**WEST SUSSEX COUNTY COUNCIL
LOCAL DEVELOPMENT DIVISION: SECTION 106 CONSULTATION RESPONSE
(excluding Transport (known as TAD) contributions)**

DATE: 17th July 2017

FROM: Eloise Short, Monitoring and Records Team

TO: Stephen Gee, Planning Applications Team

DISTRICT COUNCIL: Arun

Application Number: WA/44/17

The Provision of Service Infrastructure Related to: Land East of, Tye Lane, Walberton, West Sussex

Planning Application details – Outline application with some matters reserved for up to 175 dwellings, new vehicular access, together with associated car parking, landscaping & community facilities to include allotments, play space & community orchard. This application is a Departure from the Development Plan & may affect the character & appearance of the Walberton Village Conservation Area.

Without prejudice to the informal representations of the County Council in respect of the above planning proposal, I am writing to advise you as to the likely requirements for contributions towards the provision of additional County Council service infrastructure, other than highways and public transport that would arise in relation to the proposed development.

The basis for my advice is contained in the adopted Supplementary Planning Guidance document "The Provision of Service Infrastructure Related to New Development in West Sussex – Part 1.

The planning obligation formulae below are understood to accord with the Secretary of State's policy tests outlined by the in the *National Planning Policy Framework, 2012*.

The advice is as follows:

1. School Infrastructure Contribution

1.1 The Director for Children and Young People's Services advises that it appears that at present primary/secondary/further secondary schools within the catchment area of the proposal currently would not have spare capacity and would not be able to accommodate the children generated by the assumed potential residential development from this proposal. Accordingly, contributions would need to be requested. However, the situation will be monitored and further advice on all of the main education sectors, (i.e. Primary/Secondary/Further Secondary) should be sought if this planning application is to be progressed.

1.2 Financial Contribution

The financial contribution sought by the County Council would be based on: the estimated additional population that would be generated by the proposed development, reduced to reflect any affordable dwellings (by which we mean Social Rented dwellings, but NOT Shared Equity, Intermediate or Key Worker status dwellings) for occupation by persons already residing in the education catchment area; the County Council's adopted floorspace standard for education provision; and the estimated costs of providing additional education floorspace. As the housing mix is not known at this stage, I propose the insertion of a formula into any legal Agreement in order that the school infrastructure contribution may be calculated at a later date. The formula should read as follows:

The Owner and the Developer covenant with the County Council that upon Commencement of Development the Owner and/or the Developer shall pay to the County Council the School Infrastructure Contribution as calculated by the County Council in accordance with the following formula:-

DfE Figure x ACP = School Infrastructure Contribution where:

Note: x = multiplied by.

ACP (Additional Child Product) = The estimated additional number of school age children likely to be generated by the development calculated by reference to the total number of dwellings, less any allowance for affordable dwellings, as approved by a subsequent reserve matters planning application. The following criteria are used to generate a child product:

Dwelling Size		Occupancy	
		House	Flat
1 bed	=	1.5	1.3
2 bed	=	1.9	1.9
3 bed	=	2.5	2.4
4+ bed	=	3.0	2.8

Using the above occupancy rates to determine an overall population increase the following factors are applied. According to 2001 census data, there are 14 persons per 1000 population in each school year group for houses and 5 persons per 1000 population in each school year group for flats. There are 7 year groups for primary (years R to 6) and 5 for secondary (years 7 to 11). For Sixth Form, a factor of 0.54 is applied to the Child Product figure as this is the average percentage of year 11 school leavers who continue into Sixth Form colleges in West Sussex.

DfE Figure = Department for Education (DfE) school building costs per pupil place (for pupils aged 4 to 16) as adjusted for the West Sussex area applicable at the date when the School Infrastructure Contribution is paid (which currently for the financial year 2014/2015 are – Primary £15,558, Secondary £23,442, Further Secondary £25,424), updated as necessary by the Royal Institute of Chartered Surveyors Building Cost Information Service All-In Tender Price Index.

- 1.3 The contributions generated by this proposal shall be spent on expansion at Walberton CofE Primary School.

The contributions generated by this proposal shall be spent on expansion at Ormiston Six Villages Academy.

The contributions generated by this proposal shall be spent on a restructure of the sixth form to cater for the additional student population at St Philip Howard Catholic High School's Sixth Form.

2. Library Infrastructure Contribution

- 2.1 The County Librarian advises that the proposed development would be within the area served by a new Tier 7 facility for Six Villages and that the library would not currently be able to adequately serve the additional needs that the development would generate.

However, a scheme is approved to provide additional floorspace or facilities at the library. In the circumstances, a financial contribution towards the approved scheme would be required in respect of the extra demands for library services that would be generated by the proposed development.

- 2.2 Financial Contribution

The financial contribution sought by the County Council would be based on: the estimated additional population that would be generated by the proposed development, reduced to reflect any affordable dwellings (by which we mean Social Rented dwellings, but NOT Shared Equity, Intermediate or Key Worker status dwellings) for occupation by persons already residing in the library's catchment area; the County Council's adopted floorspace standard for library provision; and the estimated costs of providing additional library floorspace. As the housing mix is not known at this stage, I propose the insertion of a formula into any legal Agreement in order that the library contribution may be calculated at a later date. The formula should read as follows:

The Owner and the Developer covenant with the County Council that upon Commencement of Development the Owner and/or the Developer shall pay to the County Council the Libraries Infrastructure Contribution as calculated by the County Council in accordance with the following formula:-

$L/1000 \times AP = \text{Libraries Infrastructure Contribution}$ where:

Note: x = multiplied by.

AP (Additional Persons) = The estimated number of additional persons generated by the development calculated by reference to the total number of dwellings, less any allowance for affordable dwellings, as approved by a subsequent reserve matters planning application. The following figures are given as a guideline:

Dwelling Size		Occupancy	
		House	Flat
1 bed	=	1.5	1.3
2 bed	=	1.9	1.9
3 bed	=	2.5	2.4
4+ bed	=	3.0	2.8

$L/1000$ = Extra library space in sqm. per 1,000 population x the library cost multiplier (which currently for the financial year 2016/2017 are 30sq.m and £4,560 per sqm respectively).

- 2.3 The contributions generated by this proposal shall be spent a new tier 7 facility on site or on a project to enhance library space with improved digital access at Arundel or Littlehampton Library should the community facility either not progress or progress without space for Library facilities.

3. Fire & Rescue Service Infrastructure

3.1 Fire Stations

The County Fire Officer advises that a financial contribution from the proposed development towards the cost of fire and rescue infrastructure, principally fire stations and services serving the area within which the proposal stands, would be required. This is necessary due to proposed development in the Southern division and the resultant need to improve service provision across the area. The proposed development should proportionately contribute towards the cost of necessary infrastructure needed to support development.

3.2 Financial Contribution (excluding provision of fire hydrants)

The financial contribution sought by the County Council would be based on: the estimated additional population that would be generated by the proposed development, reduced to reflect any affordable dwellings (by which we mean Social Rented dwellings, but NOT Shared Equity, Intermediate or Key Worker status dwellings) for occupation by persons already residing in the fire service provision area; the County Council's adopted standards of fire service cover provision; and the estimated costs of providing additional fire stations. As the housing mix is not known at this stage, I propose the

insertion of a formula into any legal Agreement in order that the fire service contribution may be calculated at a later date. The formula should read as follows:

The Owner and the Developer covenant with the County Council that upon Commencement of Development the Owner and/or the Developer shall pay to the County Council the Fire and Rescue Infrastructure Contribution as calculated by the County Council in accordance with the following formula:-

$Y \times (Z / M) = \text{Fire and Rescue Infrastructure Contribution where:}$

Note: / = divided by, x = multiplied by.

Y = The estimated adjusted increase in population generated by the development using the following figures as a guideline:

Dwelling Size		Occupancy	
		House	Flat
1 bed	=	1.5	1.3
2 bed	=	1.9	1.9
3 bed	=	2.5	2.4
4+ bed	=	3.0	2.8

Z = the estimated costs of providing additional Fire and Rescue Infrastructure in the Southern Service Division of West Sussex at the time of payment (which, for information, for 2007/2008 was £5,530,000).

M = the projected population of the Fire and Rescue Service Southern Service Division of West Sussex in 2016 at the time of payment (which, for information, for the 2007/2008 financial year was 429,647).

- 3.3 Fire and Rescue Service Contribution to be used towards the re-development or re-location of fire stations and associated vehicles and equipment in West Sussex Fire Rescue Services Southern Area serving Walberton.

General points

Please ensure that the applicants and their agents are advised that any alteration to the housing mix, either size, nature or tenure, may generate a different population and require re-assessment of contributions. Such re-assessment should be sought as soon as the housing mix is known and not be left until signing of the section 106 Agreement is imminent.

It should be noted that the figures quoted in this letter are based on current information and will be adhered to for 3 months. Thereafter, if they are not consolidated in a signed S106 agreement they will be subject to revision as necessary to reflect the latest information as to cost and need.

Review of the contribution towards the provision of additional County Council services should be by reference to an appropriate index, preferably RICS BCIS All-In TPI. This figure is subject to annual review.

Should you require further general information or assistance in relation to the requirements for contributions towards the provision of County Council service infrastructure please contact, in the first instance, the Planning Applications Team officer, named above.

Where the developer intends to keep some of the estate roads private we will require provisions in any s106 agreement to ensure that they are properly built, never offered for adoption and that a certificate from a suitably qualified professional is provided confirming their construction standard.

Where land is to be transferred to the County Council as part of the development (e.g. a school site) that we will require the developer to provide CAD drawings of the site to aid design/layout and to ensure that there is no accidental encroachment by either the developer or ourselves.
