Subject: Tuppens Field, Walberton

FAO: Michael Eastham

I would like to add my objections to the proposed development at Tuppens Field for the following reasons:-

- 1) The traffic generated from the proposed development would be disastrous whichever way the entry and exit point was made. Yapton Lane is already suffering badly from all the heavy lorries now using it and it won't be long before there is a serious accident because of the speed of traffic coming off the A27. Therefore, it would be very dangerous for people turning left or right into Yapton Lane if this is the proposed exit and entry point.
- 2) The proposed number of houses is far too large and I don't think the services (i.e. doctor's surgeries, schools etc.) could absorb such numbers.
- 3) The number of houses surrounding the Avisford Park Hotel and golf course would be completely detrimental to our lovely rural village.
