Subject: Micheal Eastham - Tuppers Field planning application

Dear Micheal Eastham

I object to new houses being built in our village on Tuppers Field. I moved to this village 10 years ago to enjoy village life and the village community. I have all ready seen a huge increase in traffic down Yapton Lane over the time we have been here. We now have a family and the road is very unsafe. There is a lot of HGV lorries and no one sticks to the 30mph speed limit. An increase in housing will mean more traffic on Yapton Lane. I would also object to putting more pressure on the all ready stretched GP surgeries in the area when it takes over 3 weeks to be seen. My major concern is the nursery and school places. I have two daughters who I fully intended to send to the village nursery and primary school and with additional houses there may no longer be the space. I wanted a village environment for my children and with additional housing I feel that will be lost.

Yours faithfully

Katie Heywood
