FAO Michael Eastham

I strongly object to the proposed development of 175 houses on Tuppens Field Walberton.

The proposal would stretch the existing overloaded infrastructure to breaking point and adversely affect the lives of residents.

I understand that the site has only one entrance onto a very busy road. A potential 400 vehicles will cause chaos on the roads in the vicinity and traffic problems on the access and exit to the A27. The road safety implications are unimaginable and potentially dangerous.

There are limited facilities in Walberton. An additional several hundred people will not improve the situation.

The people of Walberton have worked hard on a Neighbourhood Plan and this site is the most unpopular for a number of robust objections. Yet again the planners appear to have disregarded the views of the residents who will have to live with this example of poor planning and live with the consequences.

Ken Tooth.
