Subject: Toppers Field Walberton. Objection

For the attention of Michael Eastham

I am writing to make a strong objection to the proposed building development of Toppers Field. It completely goes against the Walberton's Neighbourhood Plan. It is outside of the Built Up Area Boundary as detailed in the Neighbourhood Plan. It is unfit for development according to the most recent of reports and Arun Full Council. It will have a significant negative impact on the "landscape character" and 'visual amenity' of the village. It also impacts on the Conservation area of Walberton. It will detrimentally affect traffic in The Street which is already dangerous enough with parked cars and speeding traffic. From a very concerned Walberton resident.
