Tupper's field proposed development - Walberton:

I have lived in Walberton for about 40 years.

It is still a real village with a caring community. The proposed large Tupper's field expansion (or any other similar one), would change Walberton for ever. We would just become another expanding part of a nameless town.

Real villages are so rare now, and we should all try to save them.

I therefore strongly object to the Tupper's field building proposal, which is also contrary to the Neighbourhood Plan.

Ken Cox

16 Henty Close, Walberton
