Subject: Tuppers Field Planning Application. WA/44/17/OUT

Dear Sirs

I wish to object to the proposed development at Tuppers Field. I live in Walberton village at 4 Orchard Terrace .

I moved to this house several years ago as I was particularly attracted to this picturesque village which had not been ruined by overdevelopment. I fear this is in danger of significant change if the application is approved and will become yet another massive modern housing estate with little separation between the villages.

The objections to this are numerous and here are some of them

- ADC's consultants indicated that the site had little scope for accommodating growth without impacting on the quality and sensitivity of the Walberton Village Conservation Area.
 - Too many houses in one place
 - Loss of green space
 - Harm the rural nature of the village
 - Increase traffic congestion in The Street
- Yours faithfully Colin M Bryant Sent from my iPad
