Subject: Tuppens field objection

Dear Sirs

This development has been suggested and fought over for many years, being a resident in this area since 1962, I am very much against this wanton destruction.

It goes against Walberton's plan and is outside of the Built up area boundary as detailed in the Neighbourhood Plan.

Also it will have a negative impact on the landscape character.

It will have a detrimental affect on traffic in the street and increase the risk of local flooding.

Not to mention the impact on the Conservation area of Walberton.

Yours Faithfully

Jo Grant
