Attention: Michael Eastham

Dear Sir

Planning Application WA/44/17/OUT

I object to the above planning application on the following grounds:

- 1) that it is contrary to the Walberton Neighbourhood Plan
- 2) that the present overloading of the road system into and out of the village already threatens safe usage and that the introduction of hundreds of additional vehicles into the village will exacerbate this situation and further compromise air quality.

Yours faithfully

Mrs M.C Boldero
