Dear Mr. Eastham,

LAND EAST OF TYE LANE, WALBERTON

TUPPERS FIELD

WA/44/17/OUT

I wish to object against the development of the above field as it is against the Neighbourhood Plan for our Parish and against the Local plan.

This field should be kept as an open space as building thereon will harm the rural character of our village and damage the Conservation Area.

This field is outside the Built Up Area Boundary and is unsustainable.

The traffic on our roads gets busier and busier with both cars and HGVs and any further increase in vehicles as estimated by the number of houses applied for would create even more congestion together with potential accidents.

Flooding is always a risk in our village and therefore a development on this field would overburden the drains and sewers.

Yours Faithfully

B L Varney
