Subject: Tuppens Field development, Walberton

Dear Mr Eartham,

I'm emailing to register my objections to the proposed development in Tuppens Field. As a community we have identified sites for local development acknowledging new housing must be built. The planning authorities should pay due regard to the feelings of the local people and make decisions accordingly. Sufficient sites in Walberton have been proposed with understanding of the existing local housing.

Please follow those locally made plans.

Thank you

Sally Amesbury
