Subject: Tuppens Field

Dear Mr Eastham,

I am writing to register my objection to any building projects that may take place in Tuppens Field. Our village is not suitable for such a large project; we do not have the infrastructure to support such a scheme and it would place a heavy burden on our road through the Village itself, on our Primary School and, obviously we do not have sufficient Doctors, Dentists, etc to support such a large increase in our village population. Apart from these considerations, we still have drainage problems when the weather is inclement in the winter and, with a further large increase in the population, this can only deteriorate.

Even now the traffic through the Village itself is very dangerous, with buses, heavy goods vehicles and just normal traffic speeding through our narrow village highway, there is potential for a really serious accident at some time. Please don't add to this problem.

I ask you to consider your decision regarding this development very carefully.

Yours sincerely,
Beth Johnson (Mrs.)
