To: Planning

Subject: Tuppers Field Walberton.

FAO: Michael Eastham.

I very strongly object to the housing development plans for Tuppers Field for the reasons below.

1. The development is outside the the boundary of the built up area and as such should not be allowed.
2. We will lose our green space in the middle of the village which is contrary to our neighbourhood and local plan.
3. The village did not agree to a large development as this plan shows.
4. Traffic through the small village roads would be horrendous and dangerous.
5. The infrastructure for drainage and sewage is just not going to cope, so more flooding will occur.
6. The Hilton golf course and Hotel will suffer due to losing its beautiful location of countryside and therefore jobs will also be lost and guests would not find a housing estate a desirable view for their stay.
7. The local doctors are already to full capacity with staff shortages and no possibility of recruiting new doctors and staff.

This also applies to the local schools.

8. The number of houses proposed eg, 300, houses means per household there would be 600 cars minimum.
- This plan has not been thought out properly at all and should be totally turned down and REFUSED.

Yours sincerely,
Rachel Southfield.
