Subject: For the attention of Michael Eastham Tupperts Field Objection

Dear Mr Eastham

I am so saddened to hear that the subject of the development of Tupperts Field, Walberton, has again become a subject of planning.

Although I do not object to housing development per se, I object very strongly indeed to the development of Tupperts Field. This is not the first time that I have written about this.

I support the Walberton's Neighbourhood plan, where housing was scattered throughout our village, what was needed was carefully considered, voted upon and passed with enthusiasm.

The traffic situation in The Street is already an enormous problem and this development would exacerbate it. I dread to think what impact it would have, in terms of vehicular access onto our overcrowded small local roads. There is no doubt it would impact on the local facilities, the school is already over subscribed. Flooding is a potential problem, there has been a problem in the past, without any extra houses!

Finally it has already been considered to be unfit for development according to the recent reports and Arun's Full Council.

I wish to lodge a very strong opposition to the proposed development.

Yours sincerely

Gaye Reynolds
