Subject: Tupper's Field, Walberton

Dear Mr. Eastham,

Please don't give permission for Tupper's Field to be used for a housing development. In the Neighbourhood Plan it was one of the sites which most people wanted to be left undeveloped. It gives Walberton a feeling of being rural with space to breathe and feel relaxed. With many open spaces being taken for developments, the feeling of being closed in and stressed is becoming all too common, ultimately to the detriment of people's wellbeing. I hope you will see that the centre of the village would benefit from being left open, there are many other sites which could be used.

Mrs. Sonia Cox
