Subject: Tupperts Field, Walberton

Dear Mr. Eastham,

I am writing to object in the strongest possible terms to the proposed development at Tupperts Field, Walberton. It is totally inappropriate for a housing development on this scale to be even considered. It is putting too many houses in one place and there would be considerable loss of green space and an increase of flood risk. Also it would damage the Conversation Area of the village and increase congestion in The Street, which is getting worse as it is, without a massive development looming.

I moved into Walberton eleven years ago attracted by the character of this very pretty village, I think that character would be destroyed by the building of an enormous development.

Incidentally, any development would be contrary to the Neighbourhood Plan because the site was the most unpopular one in the parish survey.

I hope you will consider all these points fully and I respectfully request that you refuse any planning application.

Yours sincerely, M. J. Cox (Mr)
