Tuppens Field. 09.08.17

Dear sir

I don't understand how you can proceed contrary to the Neighbourhood Plan. This has been accepted so your actions must be illegal.

I am particularly concerned at any increase in traffic, the village is already over-crowded and at school time is very dangerous. It is also a health hazard because the pollution levels (already high) will increase

I am also concerned that the doctors surgery and the Primary School are full now. It is not an option to put up extra classrooms, the school is designed for a single year entry and to add one or two new classes will destroy the whole planning for the running of the school, thus spoiling a village asset.

I do not object to a small scale development widely spread over the whole area ----I do object to such a large development which is out of all proportion to the rest of the village.

Yours sincerely. Judith Thom
