Subject: FAO Mr Eastham Ref. Planning application WA/44/17/OUT

Dear Mr Eastham,

I visit Walberton regularly and I consider it to be a West Sussex gem.

I object strongly to this development as it will ruin the village character. It will damage the conservation area and increase the traffic congestion in the street. This development represents too many houses dumped in a beautiful village , once destroyed the character of the village will be gone forever.

I understand that the land was designated as a Local green space in the villages Local plan and the field is a thing of beauty. Why are the villagers wishes being ignored ?

It it madness to try to use the golf club entrance as an access point as Hedgers Hill is a blind corner and very dangerous.

Flooding in the street can be very bad already , I witnessed the flooding in the Summer of 2012 when alot of the lower part of the Street was under water. Tuppers field runs down the hill into the village and common sense should tell the planning department that water will do the same.

Yours sincerely,

Susie Miller,
51 St John's Road,
Seven Sisters,
London N15 6QJ
