Subject: Tuppers field, Walberton

FAO Michael Eastham,

Sir,

Yet again the democratic vote against developing this field is challenged. Walberton Neighbourhood Plan has already accommodated FIFTY new sites for building within the village. This shows our willingness to cooperate. Tuppers field development is outside the boundary of built up area, drawn up for the village, hence illegal. It will also have a tremendous negative effect on the environment and landscape surrounding the village. Thirdly it will badly effect the viability of the hotel, the largest employer in the village.
