Subject: Tippers Field. Ref WA/44/17/OUT

FAO Michael Eastham.

Dear Mr Eastham,

We are contacting you as we are extremely concerned at the amount of housing development proposed in Walberton and nearby, in particular Tippers Field.

As it is the heavy traffic, especially through the village is a problem and we can't see how it will cope with the huge increase in volume, also how are schools, doctors surgeries, drains, etc,etc, and law and order, going to accommodate the huge increases?

Why is there such a disproportionate housing development allocated to Walberton ? Why can't this be spread out around other areas ? Tippers Field is outside the boundary of the built up area and this application does not follow the Neighbourhood Plan and the Local Plan and national guidelines (the "NPPF")

It worries us that our village will be ruined with far too many houses, cars, people, noise pollution, law and order problems, and the adverse effect on nature conservation, etc.

We object to this development in Tippers Field.

Thank you for your time.

Kindest regards,

Andrew and Janet Dobbie.

3 Walberton Park
Walberton.
