TO Whom this concerns

I am objecting to this planning application for building on Tuppens Field.

There are too many highway issues, not just vehicular access but the traffic leading onto an already crowded A27 that still hasn't been sorted out. The A27 a main artery along the coast needs to be made suitable for the volume of traffic now.

The neighbourhood plan does not include this include this, and Arun District Council have already deemed this application unsuitable.

With the volume of houses being built in Barnham along Lake lane and Barnham Lane the services /sewage etc would not cope .

I am against this plan
