

The map shows the Nursery area with several buildings. A legend indicates two types of acoustic fences: a brown line for the 'Proposed 3m Acoustic fence' and a red line for the 'Current 2m Acoustic fence'. The current fence is a large, irregular loop surrounding a central area. The proposed fence is a smaller, more linear boundary. A 'Ward Bdy' (Ward Boundary) is shown as a diagonal line, and a 'Path' is shown as a curved line. A 'CB' (Control Barrier) is marked near the intersection of the Ward Boundary and the proposed fence.
