Thank you for your internet representation made on 10th February 2020 which has been recorded as '**an objection**' with the comments as follows:

Sustainable transport NPPF Section 9

The application lacks sufficient detail on how it will support Sustainable transport. Cycle routes and paths across this site and interconnecting routes need to be planned. Clear reference should be made to other local planning applications that contain comments on Sustainable routes and evidence detailed on how it will support and link

To encourage residents to cycle or walk the roads, houses and gardens need to be planned in such a way that storage and easy access to cycles is achieved. Cycle storage at the back of the garden is not acceptable or user friendly

Parking should be sufficient to discourage on road parking and should be set at a level of at least 3 cars per house with possible underground parking

Recycling should be encouraged and designed in with communal collection areas

Solar panels should be designed into scheme to reduce levels of fossil fuel consumption and along with this electrical vehicle charging points

Until there is a clear commitment to support this agenda then application should be rejected
