Application for tree works: work to tree(s) in a conservation area

Species	T1 Ash (<i>Fraxinus excelsior</i>)
Location	X 497314.14, Y 105807.4

Location: Walberton House, The Street, Walberton, West Sussex, BN18 0PJ

Landowner: Shanne Roberts

This application is being put forward by Green Lane Forestry LLP on behalf of Nikki Shale.

Ash (T1)

1. Proposed work

1.1 Removal of the entire tree.

1.2 Reasons for work

1.2.1 T1 is infected with Ash Dieback (*Hymenoscyphus fraxineus*) (Figures 1 - 4)

1.2.2 T1 is still sufficiently structurally safe to allow for climbing, if removed at this point it will be possible to guarantee no damage to property.

1.2.3 If T1 is left there is a risk that it will drop limbs causing damage to the car parking area (and any cars parked), damage to a wall, as well as risk to life.

Details of tree works

The work will be undertaken by a qualified tree surgeon and qualified grounds staff. All relevant insurance and risk assessments will be available on request and, work will be carried out in accordance with British Standard 3998:2010 Tree Work – recommendations.

All work will be done in accordance with the approved application.
