Dear Sir/Madam,

RE: WA/58/15/HH – Vehicular Crossover within the Walberton Conservation Area.

We are objecting to the above application, firstly since it is within the Walberton Conservation Area and is not an appropriate proposal for this pleasant corner, and secondly because the grass frontage is strictly speaking part of the village green.

There are also safety concerns re. this proposal since there is an adjacent bus stop, and it is opposite the junction of several busy roads. In addition, the rear entrance to our properties could have the view on emerging compromised by any parked vehicles.

Yours Sincerely,

BRIAN & MARY KENDRICK.
