Subject: RE: application ref: WA/58/18/PL + Erection of 2 No. detached dwellings, adaptation to existing crossover & new driveway, 1 Orchard Way Fontwell Walberton BN18 0SH

Dear Anita,

Thankyou for your considered detailed response, it is greatly appreciated.

In support of the application I enclose a copy of the site survey, which illustrates the trees onsite. These are not shown on the application as I understand that the trees shown on the survey were to be removed by the site owner.
This is part of the continuing maintenance of the plot and not part of the application.

I now understand that these trees have not been removed.
The large tree to the northern boundary is more than 10m away from the proposal and does not need to be removed as part of these proposals.

Please confirm if you require us to update the plan/ application to show these trees.

With regard to the phase one survey, I believe that this type of survey to be more appropriate for larger commercial developments.
Would it not be more appropriate to have a bat survey undertaken.

If you could confirm how we are to proceed with the above so that we can provide the documentation that you require to determine the application.

I also can confirm on behalf of my client that agree to an extension of time as stated: 14.12.2018.

Thankyou again for your assistance.

Subject: [SPAM]RE: RE: application ref: WA/58/18/PL + Erection of 2 No. detached dwellings, adaptation to existing crossover & new driveway, 1 Orchard Way Fortwell Walberton BN18 0SH

Dear Mr Boswijk,

I have now had an opportunity to look at the application in detail and consider the points raised in the letters of representation.

The letters refer to the presence of bats and I note that no Ecology Report accompanies the application. A Phase 1 Habitat Survey will therefore need to be submitted for consideration. In addition there are mature trees on the site and bordering the site which are not clearly indicated on the site plan and these will need to be clearly identified and clarification given as to whether the trees are to be retained or removed.

With regard to the acoustic report, I chased environmental health for a response to my consultation yesterday and hope to receive their comments shortly. These will be critical to determination of the application.

Provided these matters are satisfactorily resolved then it is likely that the application would be supported by officers, but any application recommended for approval would need to be a Committee item and given the information requested and the need to consult on response I doubt that the proposal would make the December Committee. However if we can agree to an extension of time at this stage until 14-12-2-2018 then that will cover the committee date. If the application requires further time for Committee scheduling I will come to back to you at a later stage to request a further extension.

Regards

Anita Gardner

Dear Mr Boswijk,

I apologise for the delay in dealing with your application. I have an extremely high case load and most of it is urgent. I am working on my applications in date order and unfortunately yours is not as old the others I have been prioritising. I would be grateful if you would agree to an extension of time on the application until 17-10-2018 to allow me the opportunity to consider your proposal and discuss with other officers prior to writing my report. I am also still awaiting the comments of the environmental health officer which I would hope would be received within this time frame.

Regards

Anita Gardner

Dear Anita,

I am the Architect/agent for the above application.

We have not received any correspondence with regard to the application could you confirm if any additional information is required to determine the application.

I understand that today is the decision date, are you anticipating an extension of time on this one.

I would be most grateful If you could update me on the progress of this application.

Regards,
