6. The wooden building, labelled 'Building A' on the plan at SP1, was erected in 2010 and is used to house the log processing machines. This is constructed from telegraph poles etc and as a result I do not have a receipt for its purchase. This building is visible in the Google Earth aerial photograph dated 6 June 2013 which I attach at SP3.
7. The metal clad building, labelled 'Building B' on the plan at SP1, was erected in 2016 and is used to store logs and estate maintenance machinery.
