Subject: WA/60/15/HH - First Floor Extension 6 Nash Way, Walberton*

Dear Anita

Thank you for updating us.

The amendment does not reduce our objection since it does not address the problem of taking light out from our windows.

Any projection to the rear of the property, and we note it would appear a balcony would be included, would take away the privacy and seclusion that we currently enjoy.

Kind regards

Paul & Susy Hague

NB Would our above comments would be taken into consideration since it is past the 5th November ?
