

BUSINESS STATEMENT

- Euphoria Kitchens was set up in 2016 by Rod Baker and Richard Scowen.
- The business specialises in the design, supply and installation of quality kitchens throughout Sussex.
- We have completely refurbished Unit E1 including new suspended ceiling, flooring and heating.
- The refurbishment included insulation to the walls and ceiling so improving the thermal efficiency of the property. LED lights are used for efficiency and sustainability.

Before Refurbishment

After Refurbishment

- Our start-up investment into the business has been significant and is self-funded (approx. £35,000).
- The business employs two directors and one part time member of staff in the showroom.

Euphoria Kitchens Unit E1, The William Becket Yard, The Street, Walkerton, Arundel, West Sussex BN13 0PE

- We generate full time work for 2 other self-employed installers as well other sub-contractors who we use on a regular basis.
- We are also advertising for a further installer and will also be shortly looking to bring in another member of staff into the showroom potentially on a full time basis
- Our kitchens are manufactured in the UK
- Our kitchens are delivered direct to customers' house. We do not take kitchen deliveries from Unit E1 so there is low traffic impact.
- We work mostly by appointment
- We do not physically sell or hold stock of any products in the showroom
- We feel we have had a positive effect to the village. The number of visitors is low but our clients from outside the village often then go on to use village amenities such the newsagents or the local pub (The Holly Tree) for lunch.
