Subject: Planning Application Ref. WA/63/19/PL - Erection of 8 Detached Dwellings on Land South of Arundel Road, Walberton, West Sussex, BN18 0QP - Pre Commencement Conditions
Importance: High

Andrew,

Further to our telephone conversation on 22 November 2019 and my receipt of the attached email with your letter dated 22 November 2019, I can now confirm that my client agrees to the pre-commencement conditions set out within the same.

I hope this assists – please contact me if I can assist further.

Regards,

Matthew Utting BSc (Hons) DipTP MRTPI

Subject: RE: WA/63/19/PL - Land South of Arundel Road - Extension of Time Request
Importance: High

Hello, Andrew,

Many thanks for your call earlier; and I can confirm safe receipt of your email below and the attached email with your letter of today's date proposing pre-commencement conditions.

I have spoken with my client and can confirm that your request for an extension of time until 13 December 2019 is agreed. By first thing on Monday next week, I will be in receipt of my client's instructions regarding the proposed pre-commencement conditions and will write to you again but in the meantime, have advised my client that none of the pre-commencement conditions are in my view unreasonable and/or unduly onerous.

Otherwise, my client and I are delighted that you have confirmed that you will prepare a Report recommending that the site's application be granted by Delegated Powers, subject to conditions. I am sure this will be a development of which we can all be proud.

I will be in touch again by first thing Monday next week. In the meantime, I hope this email is helpful.

Have a good weekend.

Regards,

Matthew Utting BSc (Hons) DipTP MRTPI

Dear Mr Utting,

Town and Country Planning (Pre-commencement Conditions) 2018
Notice of intention to impose pre-commencement conditions

Erection Of 8 Dwellings With Garaging & Open Resident & Visitor Parking, With A New Access From Arundel Road; Provision Of Hard & Soft Landscaping & Open Space; Foul & Surface Water Drainage Systems; & Other Works - This Application Is A Departure From The Development Plan

Land South Of Arundel Road Walberton BN18 0QP

From 1 October 2018 section 100ZA(5) of the Planning Act 1990 provides that planning permission for the development of land may not be granted subject to a pre-commencement condition without the written agreement of the applicant to the terms of the condition (except in the circumstances set out in the Town and Country Planning (Pre-commencement Conditions) Regulations 2018).

The following Pre Commencement Condition/s are Proposed:

- 3 Construction of the development shall not commence until details of the proposed means of foul and surface water sewerage disposal have been submitted to, and approved in writing by, the Local Planning Authority in consultation with Southern Water."

Reason: To ensure that the proposed development has the adequate foul and surface water sewerage disposal to comply with policy W DM1. This is necessary as a pre-commencement condition to facilitate adequate foul and surface water sewerage disposal.

- 4 Development shall not commence, other than works of site survey and investigation, until full details of the proposed surface water drainage scheme have been submitted to and approved in writing by the Local Planning Authority. The design should follow the hierarchy of preference for different types of surface water drainage disposal systems as set out in Approved Document H of the Building Regulations, and the recommendations of the SuDS Manual produced by CIRIA. Winter groundwater

monitoring to establish highest annual ground water levels and winter Percolation testing to BRE 365, or similar approved, will be required to support the design of any Infiltration drainage. No building / No part of the extended building shall be occupied until the complete surface water drainage system serving the property has been implemented in accordance with the agreed details and the details so agreed shall be maintained in good working order in perpetuity.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies W SP1, W DM1, W DM2 and W DM3 of the Arun Local Plan. This is required to be a pre-commencement condition because it is necessary to implement the surface water drainage system prior to commencing any building works.

- 5 Development shall not commence until full details of the maintenance and management of the surface water drainage system is set out in a site-specific maintenance manual and submitted to, and approved in writing, by the Local Planning Authority. The manual is to include details of financial management and arrangements for the replacement of major components at the end of the manufacturer's recommended design life. Upon completed construction of the surface water drainage system, the owner or management company shall strictly adhere to and implement the recommendations contained within the manual.

Reason: To ensure that the proposed development is satisfactorily drained in accordance with policies W DM1, W DM2 and W DM3 of the Arun Local Plan. It is considered necessary for this to be a pre-commencement condition to ensure that the future maintenance and funding arrangements for the surface water disposal scheme are agreed before construction commences.

- 8 Prior to the commencement of the development hereby approved, a scheme to demonstrate that the internal noise levels within the residential units will conform to the "Indoor ambient noise levels for dwellings" guideline values specified within Table 4 under section 7.7.2 of BS 8233:2014. Details compiled by a competent acoustician on sound insulation and noise reduction for buildings shall be submitted to and approved in writing by the Local Planning Authority. The scheme should take into account the correct number of air changes required for noise affected rooms. The works specified in the approved scheme shall then be carried out in accordance with the approved details prior to occupation of the premises and be retained thereafter.

Reason: To protect the amenity of local residents in accordance with Policy QE DM1 of the Adoption Arun Local Plan 2011 - 2031. This pre-commencement condition is considered necessary to prevent unacceptable levels of noise to residents of the new properties.

- 9 No development shall commence until a scheme for the incorporation of a bat brick on the southern/south western elevation of each property at the highest point possible within the brickwork and bird boxes on trees or on the buildings has been submitted to and approved by the Local Planning Authority. The bat bricks shall be permanently retained in accordance with the approved details.

Reason: To ensure compliance with policies ENV DM5 of the Arun Local Plan. This is considered necessary as the bat bricks need to be incorporated within the structure of

the building.

- 13 Before the site is occupied or any machinery is introduced to the site or demolition work or construction work or alterations to existing ground levels takes place a PRE-COMMENCEMENT Site Meeting is to take place between the Planning Authority's Tree Officer and the Arboricultural Expert representing the site owner(s) - at this meeting all protective fencing and ground protection measures will be inspected to verify they are 'Fit for Purpose' as required under British Standard 5837:2012 and have been erected and positioned exactly as shown on the Tree Protection Plan, ref: 18164-BT3.

- A schedule of Site Monitoring/Supervision visits and Reporting Procedures prepared by an Arboricultural Expert will be required and their extent will be agreed on at the site meeting to the satisfaction of the Planning Authority's Tree Officer.

Reasons: To comply with BS5837 and to ensure that retained trees are afforded due respect and appropriate levels of protection such that their ongoing health and vitality is not compromised, and they can continue to enhance the landscape and amenity of the area. This pre-commencement condition is considered necessary to protect the existing trees on site.

- 16 Construction Management Plan
No development shall take place, including any works of demolition, until a Construction Management Plan has been submitted to and approved in writing by the Local Planning Authority.
Thereafter the approved Plan shall be implemented and adhered to throughout the entire construction period. The Plan shall provide details as appropriate but not necessarily be restricted to the following matters,
- the anticipated number, frequency and types of vehicles used during construction,
 - the method of access and routing of vehicles during construction,
 - the parking of vehicles by site operatives and visitors,
 - the loading and unloading of plant, materials and waste,
 - the storage of plant and materials used in construction of the development,
 - the erection and maintenance of security hoarding,
 - the provision of wheel washing facilities and other works required to mitigate the impact of construction upon the public highway (including the provision of temporary Traffic Regulation Orders),
 - details of public engagement both prior to and during construction works.

Reason: In the interests of highway safety and the amenities of the area. This pre-commencement condition is considered necessary to protect the amenity of neighbouring properties.

OPTIONS:

1. Confirm your acceptance in writing by the **6th December 2019**.
2. Choose not respond (i.e. remain silent). If there is no response by the **6th December 2019** the Local Planning Authority may grant planning permission subject to the terms of the pre-commencement condition specified in the notice.
3. Provide comments before the **6th December 2019** on the proposed pre-commencement

PL_PCC_LTR_001 (000)

condition, in which case that condition cannot be imposed.

4. Indicate before the **6th December 2019** that you do not agree to the terms of the proposed pre-commencement condition, in which case the Local Planning Authority may then either:
 - a. grant planning permission without the pre-commencement condition,
 - b. seek written agreement to an alternative pre-commencement condition, or
 - c. refuse to grant permission (if it considers that the disputed pre-commencement condition is necessary to make the development acceptable in planning terms).

If you wish to discuss the contents of this letter, or if there is anything you do not understand, please contact the case officer on the above extension.

Yours sincerely

Neil Crowther
Group Head of Planning
