Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No: WA/63/21/PL
Site Address: Land East of Tye Lane Walberton BN18 0LU
Description of works: Proposed alternative vehicular accesses off Tye Lane and emergency access off Avisford Park Road, along with minor highway works following WA/95/18/RES (resubmission following WA/93/20/PL). This site is CIL Zone 2 (Zero Rated) as other development.

Thank you for your internet representation made on 2nd August 2021 which has been recorded as an objection with the comments as follows:

OWPC39102

I find it disappointing that residents of Walberton are required (once again) to register objections to this ludicrous and premature application. Many responders have already set out their relevant, legitimate concerns about the unsuitability of Tye Lane for such an increase in vehicle numbers, and the safety and environmental issues that will be caused by additional traffic using The Street, etc. I fully support those objections and those of Walberton Parish Council. I will confine my comments directly to the double-sided A4 sheet produced by Vistry and delivered to some homes in Walberton. This is apparently what passes for engagement with the local community these days!

The leaflet states that they want to provide their home buyers with certainty about the future access arrangements to the site. How ironic is it that in apparently seeking certainty for future residents, Vistry has created so much uncertainty for existing residents when there is no need to do so?! Highways England is fully aware of this housing development and if, and it's still a big if, the A27 Grey route goes ahead, then continued access to Avisford Grange has been assured. (In the overall scheme of things I'm not clear why future Walberton residents apparently deserve certainty when those of us already living here seem to have no choice but to live with continued uncertainty when it comes to housing, traffic, pollution etc.)

Bizarrely the leaflet goes on to say they would not be pursuing an alternative access point were it not for the proposed route of the A27 by-pass. Consequently their amended proposal allows vehicles to turn right out of the site to the existing A27 rather than routing traffic through the village. What they fail to mention, of course, is that should the by-pass be built there would be no point in turning right out of the site because Tye Lane would have become a dead end and ALL traffic would be routed through the village! I'm guessing someone at Vistry is a fan of Catch 22 or Kafka!

Please refuse this inappropriate, unnecessary and flawed application.

Your views as made above will be considered before the application is determined.
