Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No: WA/63/21/PL
Site Address: Land East of Tye Lane Walberton BN18 0LU
Description of works: Proposed alternative vehicular accesses off Tye Lane and emergency access off Avisford Park Road, along with minor highway works following WA/95/18/RES (resubmission following WA/93/20/PL). This site is CIL Zone 2 (Zero Rated) as other development.

Thank you for your internet representation made on 3rd August 2021 which has been recorded as an objection with the comments as follows:

OWPC39137

The most serious consequence of permitting this access would be substantially increased traffic levels, not only through Walberton village itself but also along West Walberton Lane and other local routes : West Walberton Lane already suffers from excessive amounts of speeding traffic (it has no pavements for pedestrians, and is a designated cycle route), whilst The Street is notoriously congested during much of the day.

It is incumbent on Highways England to design the Grey Route either in a way which allows the already permitted development to take place without modification or to pay full compensation to the developer -- it should not be the case that the local community suffers from a third major disturbance (the previous two being the Avisford Grange development itself, and then the Grey Route for the A27).

Moreover, the proposal for an alternative access is premature -- the Grey Route may never be constructed. If permission were to be granted now, the decision would suggest that any new access onto Tye Lane would be acceptable whether or not the Grey Route ever comes about, and this is most definitely not the case.

Your views as made above will be considered before the application is determined.
