Dear Sir/Madam,

Town & Country Planning Act 1990 (as amended)
Town and Country Planning (Development Management Procedure) (England) Order 2015

Application No: WA/63/21/PL
Site Address: Land East of Tye Lane Walberton BN18 0LU
Description of works: Proposed alternative vehicular accesses off Tye Lane and emergency access off Avisford Park Road, along with minor highway works following WA/95/18/RES (resubmission following WA/93/20/PL). This site is CIL Zone 2 (Zero Rated) as other development.

Thank you for your internet representation made on 5th August 2021 which has been recorded as an objection with the comments as follows:

OWPC39236

Tye Lane was and remains unsuitable as the primary access to this site and I believe previous applications on land adjacent to Tye Lane have been rejected for reasons of inadequate access. To the south of the proposed access Tye Lane narrows approaching The Street and this application would narrow it further (apparently to 4.8m according to drawing 183248-002) to accommodate a footpath where cars are usually parked by owners of properties with no off street parking. It is not possible to take land from the properties on the Eastern side of Tye Lane to widen the road as at least one already has a very steep driveway entrance with no alternative access. Visibility for car drivers exiting Tye Lane onto the Street is not good when there are cars parked to the West of the Junction and The Street itself is often reduced to a single lane by parked vehicles. To the North of this plan the work proposed to the junction of Tye Lane with the current A27 would appear to reduce the distance between the end of the slip road onto the westbound carriageway from Tye Lane and the off slip to the Engineering works to below a safe distance which I believe is 500m from discussions I have had with Highways England regarding the A27 Grey Route. Tye Lane is also subject to a 7.5T weight limit.

Your views as made above will be considered before the application is determined.
