Dear Mr Eastham,

I am very concerned about the applicant's email of 14/9/21 which is on the planning portal.

One paragraph says:-

“The planning statement mentions that the application would not be implemented until the Arundel Bypass (grey route) was implemented. However, this is no longer the case, and the application is proposed to be implemented as soon as possible, disregarding the future status of the Arundel Bypass.”

I believe that this is a material change to the planning application and ADC should go out to reconsultation with all local residents as this now appears to be an application for a second access via Tye Lane and is no longer dependent on the grey route.

My previous objection stands. Tye Lane is not safe or suitable for all the additional traffic and the applicant already has access off Yapton Lane, so this second access is not required.

Yours sincerely,

Ciaran Hydes
