

The image contains two architectural drawings for a proposed entrance gate, labeled 'OPTION 2'.

The top drawing is the 'PROPOSED ENTRANCE GATE PLAN'. It shows a symmetrical layout with two square pillars, each 850 units wide and 850 units high. The pillars are connected by a central 'PROPOSED VORTEXIAL GATE' structure. The distance between the pillars is 2400 units. A curved red line indicates a 'FLOWER BED BETWEEN BOUNDARY WALL & FOOTPATH'. The plan view also shows a curved boundary wall and a footpath.

The bottom drawing is the 'PROPOSED ENTRANCE GATE ELEVATION'. It shows the front view of the gate. The gate is flanked by two pillars, each 850 units wide and 700 units high. The gate itself is 2400 units wide. The pillars are topped with a decorative finial (C). The gate is labeled with A, B, C, and D. The elevation shows the gate's structure, including the pillars, the gate leaves, and the decorative elements. The gate is set against a background of a curved boundary wall and a footpath. The word 'EXISTING' is written at the bottom left of the elevation drawing.

A) RE-BUILDING OF LEFT PILLAR
B) RIGHT PILLAR TO BE MADE GOOD
C) RE-BUILDING OF PILLAR CAPS
D) EXISTING WROUGHT IRON TO BE SANDBLASTED AND POWDERCOATED
RETAIN FEATURES OF LOCAL HISTORIC AND ARCHITECTURAL INTEREST
