Subject: proposed housing at Walberton ref WA/68/20/OUT

Dear Sir

I am extremely concerned about the proposed grey route and housing planned at Walberton. As you are aware Walberton has suffered from flooding over the years and especially in The Street and the corner of Burch Grove, which affects all the people living in the grade 2 listed houses. We already have a major traffic problem in Walberton as it has become a rat run for the A27 and to Barnham. Barnham Lane already has an issue with flooding every year which is from water from the pond which does not drain once on the road. As you are aware there are many

disabled young adults on the road, and the HGVs using these unsuitable small roads, with adults on disabled bikes, is a horrifying thought. I have written to my MP as we all do, but I feel he is not fully aware of the issues of this village which is very ancient and should be protected.

Yours Sincerely

Caroline Marshall
