Dear Anita,

Further to your email below I apologise if there has been some confusion however when we discussed this scheme last week I explained that the slight revision to the layout was borne out of the a necessity to accommodate the required drainage fields and soakaways for foul and surface water. The attached drainage layout shows this to be the case. I also attach the site landscape plan which shows there will be on loss of a 'sense of place' as was suggested by WSCC.

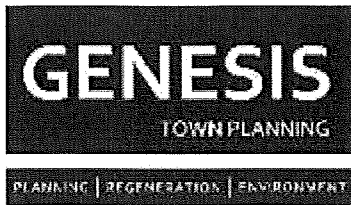

Please could you let me know if you have any further queries and when you consider a decision might be forthcoming.

Kind regards,
Natalie

Dear Ms McKellar,

I note that there is no reason given on the application forms for the proposed repositioning of plots 5 and 6 and would be grateful if you could provide some background detail as to the reason for the application.

Regards

Anita Gardner
