**Development:**

1. 5 x mature common limes (G1) - remove small-diameter growth from dormant buds on the main stem between the clipped basal suckers and 5m above ground level. Reasons - to maintain a clear section of lower stem and increase light levels to garden.
2. London plane (T1) - shorten tips of small-diameter secondary and tertiary branches from descending branches (by 1m to 2m) to provide 2m to 3m clearance above the roof and eaves of Manor Lodge. Reasons - to reduce risk of minor structural damage to building.
