For attention of Mr Mark Evers on

Dear Sir,

I refer to my telephone conversation this morning with Mr Mark Evers on about a Laburnum tree in my garden which is dying.

I think it has a fungal infection which is affecting it slowly, & specially on the windward side, and I would like to have it felled before it becomes dangerous. I should be grateful if I could have Planning Consent for this work to be carried out. I would appreciate your advice.

Yours faithfully,

(Mrs J. M. Grant)
